Program Review Committee
Friday, April 25, 2014, 9a – 11a

Agenda

1. Approve Notes from 4/11/14

2. Online Program Review Template Review: Paul Chown

3. Discussion: draft Executive Summary Revisions (see attached)*

4. Other

5. Adjourn

*In the attached draft summary, I put the information we discussed at the April 11 meeting into the template as best I could. I also used survey monkey to summarize the exemplary, acceptable, developing and not acceptable programs as best as possible. Putting these into chart form, it is easy to see a bell curve: acceptable was the primary category for Instruction and Student Services. Also, I only put in the exemplary programs. Do we want to point out those that fell more into the developing areas or not acceptable? I was reluctant to do so, but this can included easily. The survey monkey summaries are attached. It was easy to do this for the Student Development and Instruction reviews, because we primarily used the rubric; but we did not with the Service Areas reviews. I went ahead and marked these as exemplary, acceptable or developing based on the narrative in section 8 for each service area program. The service areas are not currently included in the draft summary. We can discuss how we wish to do this, since they were not actually based on the rubric. There are other areas that need completing and discussion, such as the placement of some of the information and discussion about the rubric. Lastly, I have yet to include the Curriculum and SLO information.
